Executive Public Summary

The Project handbook of the BRAVA project is based on the Annex I of the Grant agreement, the “Description of Action” and further agreements proposed and discussed during the Kick-Off Meeting. It covers the detailed explanation on project governance, meetings, quality assurance, the work plan, reporting, communication and dissemination rules, and confidentiality.

In essence, this project handbook is the guidebook for the project and will therefore be reviewed and updated if deemed required with updated information in an appendix.

The most recent version of the document will be available for the consortium members (via the BRAVA-archive platform on the DIPP tool, see 4.3.2 for information on DIPP). If a new person/Party joins the BRAVA consortium, this document will serve as guide for them to get familiar with the project management structure and to know where they can find specific information related to project management procedures.

9 Acknowledgments
